

## ESTIMATED AVAILABILITY DATE ON THE PARTS PORTAL

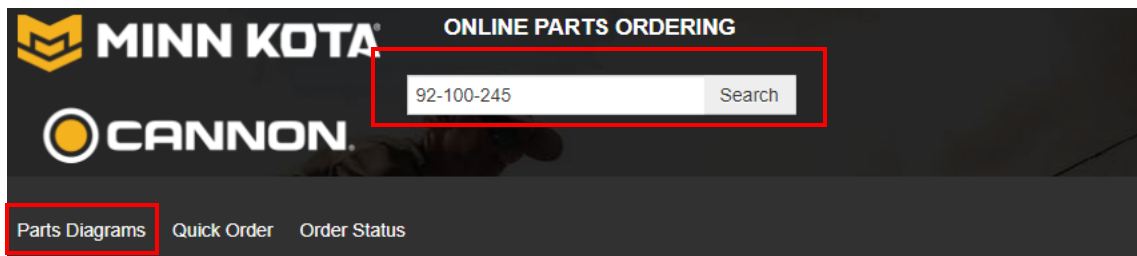

As of 02/22/2022, we implemented an enhancement to the Parts Ordering Portal that will estimate when back ordered parts are expected to be in stock.

**IMPORTANT:** If the part is on back order and you need it, place the order to ensure it will be shipped when the part is back in stock on the estimated date.

**NOTE: AVAILABILITY DATES ARE SUBJECT TO CHANGE**

When a back ordered part is added to the shopping cart it will now show the Estimated Availability Date.

- 1) Search for the part number by typing the part number in the search bar or by locating the part number from a parts diagram.

The screenshot shows the top navigation bar of the Minn Kota and Cannon Online Parts Ordering portal. The search bar contains the part number "92-100-245" and a "Search" button. Below the search bar, the navigation menu includes "Parts Diagrams", "Quick Order", and "Order Status".

Welcome to Minn Kota and Cannon Online Parts Ordering

Here you can order replacement parts for Minn Kota trolling motors and shallow water anchors. We make it easy to help you keep your Minn Kota product running like new. To get started, create an account or continue as a guest.
