Electric Downriggers 2010-2020 Frame Replacement

Model Numbers: 1902300; 1902301; 1902305; 1902306; 1902307; 1902310; 1902311

Serial Number Range: K286CN00007 – U214CN00001

Reason: Part Update/Production Process Change

Disposition: Where possible use new parts

Affected Part Numbers: Old: 3392524/3772524 & 3392525/3772536
New: 3772545 & 3772546

Additional References: Online parts lists for Mag 5, Mag 10, Mag 10 TS

Explanation:

For Downriggers with serial number K286CN0007 and greater; when replacing the frame on any Mag 5 or Mag 10 use kit 3772545; for frame replacements on Mag 10 TS us kit 3772546.

These new kits are an improved design and will help preserve inventory of 3772524 and 3772536 for Digi-Troll 5 and 10 repairs.

Recent production changes allow an improvement to the overall design of the Cannon Electric Downrigger Frame construction. This design change is not backward compatible to Digi-Troll 5, Digi-Troll 10, Digi-Troll 5 TS, or Digi-Troll 10 TS. When 3772524 & 3772536 are out of stock they will be obsolete.

Parts Lists for Mag 5, Mag 10 and Mag 10 TS published to <https://motors.johnsonoutdoors.com> are changed to reflect the new kit part number, so anyone ordering from the parts lists will be getting the new kits.

Repairs of Digi-Troll 5, Digi-Troll 10, Digi-Troll 5 TS and Digi-Troll 10 TS should continue as normal until the supplies of 3772524 and 3772536 are exhausted. If you have an unrepairable Digi-Troll 5 or 10 due to parts unavailability contact ASCHotline@johnsonoutdoors.com with details of the unrepairable downrigger(s).
